SUMMARY

UX/UI designer with a degree in Interactive Arts and Technology from SFU and hands-on experience across live government platforms, client-commissioned briefs, and end-to-end design projects. Brings deep user empathy, shaped by 14 years of pursuing a second passion on my own terms before committing fully to design, reading people, adapting strategies, and solving problems in real time — into a design practice that spans the full process — from user research, personas, and journey mapping through to high-fidelity design systems, production-ready component libraries, prototyping, and front-end development of live, deployed products and websites.

STATUS

Currently based in Hong Kong on the Admission Scheme for Second-generation Hong Kong Permanent Residents (ASSG), with the right to work without employer sponsorship.

EDUCATION

Simon Fraser University *April 2026*
BA in Interactive Arts & Technology · Design Concentration

WORK EXPERIENCE

UX/UI Designer · LSCM R&D Centre · Cyberport, Hong Kong *Jul – Sep 2025*
- Designed the UI and built a 116+ component library for the Computerized Transaction Record (CTR) — a live Hong Kong Department of Health web platform for tracking antimicrobial transactions.
- Redesigned existing page layouts and established a cohesive design system, enabling the development team to build new features rapidly through reusable, nested Figma components.
- Collaborated within a cross-functional team of designers and developers across a fast-paced, government-facing product environment.

Senior Coach · West Coast Badminton Academy · Richmond, BC *Oct 2025 – Aug 2026*
- Design and deliver structured programmes for individuals across varying skill levels, continuously refining the approach based on performance feedback and individual learning needs.
- Translate complex concepts into clear, accessible instruction — adapting communication style based on the person in front of me, whether that's a beginner or a high-performance athlete.
- NCCP Level 1 Certified (BCAN) · NCCP Level 2 Trained · Shuttle Time Certified (BWF) · Safe Sport Certified (CAC).

Head Coach · Shuttlesport Badminton Academy · Port Coquitlam, BC *Jan 2012 – Jun 2025*
- Built and maintained long-term client relationships over 13 years through consistent, empathetic communication and a genuine investment in individual growth and outcomes.
- Identified gaps in understanding or performance, tested new approaches, and iterated based on real-time feedback — applying the same problem-solving mindset that drives user-centered design.
- Managed end-to-end operations across scheduling, client registration, inventory, and stakeholder communication in a fast-paced, service-oriented environment.

DESIGN PROJECTS

Portfolio Website · UX/UI Designer & Front-End Developer *2026*
- Designed and developed a personal portfolio from scratch using HTML and CSS, built and maintained in VS Code with AI-assisted development using Claude Code CLI and GitHub Copilot — version controlled and deployed through https://zachfan-96.github.io/

City of Vancouver — Pre-approved Cooling Pilot · UX/UI Designer *2026*

- Received a real client brief from the City of Vancouver, designed a streamlined permit flow for vulnerable residents installing passive cooling systems, and presented the prototype directly to City representatives.
- Contributed to early research, then took full ownership of prototyping and high-fidelity design in Figma.

CTR Hong Kong — Computerized Transaction Record · UX/UI Designer *2025*

- See LSCM experience above. Full component library and platform redesign for a live HK government system.

Shuttlesport — UX Research & Website Redesign · UX/UI Designer *2025*

- Redesigned the website for the badminton academy I coached at for 13 years — giving the project real stakes and a genuine understanding of the business, the users, and the pain points that generic research rarely surfaces.
- Conducted ethnographic research into user behaviour within the booking process, and facilitated a structured online workshop via Discord and Miro to gather insights from both users and stakeholders.
- Delivered a redesigned booking flow informed by empathy mapping, journey mapping, and user flow analysis.

Badminton E-Commerce Website · UX/UI Designer & Developer *2025*

- Designed and developed a responsive e-commerce website from scratch using HTML, CSS, and JavaScript — covering product presentation, navigation, simulated filters, shopping cart UI, and payment flow.
- Applied UX principles to layout, typography, and interaction design for an athletic audience, balancing clean aesthetics with functional usability.

HomeScope — Housing App for International Students · UX/UI Designer *2024*

- Designed an AI-driven iOS app helping international students find affordable housing in Vancouver — covering user research, personas, wireframes, and high-fidelity prototyping in Figma and ProtoPie.

TOOLKIT

UI Design & Prototyping	Figma · ProtoPie · Miro
UX Research	Primary & Secondary Research · Journey & Empathy Mapping · Usability Testing
AI & AI Assisted Dev. Tools	VS Code · GitHub · Claude Code · GitHub CoPilot · ChatGPT · HTML · CSS · JS
Languages	English · Cantonese
